## ECOSYSTEM™ MINI

For more info, scan here or visit [sanus.com/en\\_US/learn/ecosystem](http://sanus.com/en_US/learn/ecosystem)

The SANUS EcoSystem™ Mini is a customizable accessory that protects TVs and AV accessories from power surges, removing the need for multiple power outlets or power strips. It was specially designed to work with most small components, including IR repeaters, routers, streaming devices, and more. It is also compatible with all EcoSystem™ accessories. With a space saving design, the EcoSystem™ Mini neatly hides behind mounted TVs and furniture or attaches directly to wall, shelf, or in-wall box. Includes power cord and offers two 125VAC outlets, four 12VDC plugs and two 5VDC plugs. UL listed.

Protects TV and accessories from power surges

Compatible with SA808 and SA809 Recessed Component Boxes

Attaches directly on wall, rests on a shelf, or fits within an in-wall box

Also Available: Model SA207 – additional power cable for small components and accessories

Hides neatly behind mounted TVs and furniture

Works with TV and most small components (IR repeaters, routers, streaming devices, etc.)
